

Format USB (Under 32GB) to FAT32 via Windows 7/8/10 File Explorer

Connect your USB drive to a Windows PC or laptop and let Windows recognize your drive and assign it a drive letter. Check it in Windows Explorer and follow the steps to format the drive to FAT32 as you want.

Step 1. Press Windows + E keys and open File Explorer.

Step 2. Right-click on your USB drive and choose Format.

Step 3. Choose FAT32 as the target file system, tick Quick Format and click Start.
